

Voltage Multipliers

Calex Manufacturing Company, Inc. offers custom voltage multiplier solutions to meet your unique requirements. These products are ideal for applications such as electrostatic deflection, x-ray systems, mass spectrometers, gas chromatography, etc. Calex will work with you as a member of your team to define your voltage multiplier requirements, develop a detailed specification for your approval and provide first articles with a typical turn-around time of 6-8 weeks.

- AC Inputs of 0 to 5kV p-p
- AC Input Frequency of 5kHz to 100kHz
- DC Output Voltage from 500V to 15,000V
- DC Output Power up to 25W
- Operating Temperature Range from -40 to +100C

Talk to us about any application specific requirements you may have. We look forward to working with you.
